INTERNS READY FOR THE NEXT STEP

As their 18-month internships draw to a close in December, Willbur Cleophas (Social Performance) and Kern Papier (Technical) are preparing for their next steps.

During their time at Umoya Energy, Willbur gained experience in community programmes, stakeholder engagement and communications, while Kern developed practical knowledge of wind farm operations. Applications for Umoya Energy's 2027 internship intake will open in early November. Follow our Facebook page for announcements and application details.

GROWING LOCAL BUSINESSES

Our SMME Development Programme has welcomed a new group of entrepreneurs from across the West Coast. Delivered in collaboration with Aurora Rietvlei Solar, with the Initiative for Community Advancement as the implementing partner, the programme offers workshops and mentoring to help participants strengthen their businesses.

Entrepreneurs who meet the participation criteria, including workshop attendance and mentoring visits, will have the opportunity to pitch for grant funding as they work towards their business goals.

JOIN OUR COMMUNITY MEETING

Community members are invited to join us for an upcoming community meeting in Hopefield.

Date: 25 November 2026
Time: 18:00
Venue: Hopefield Thusong Centre

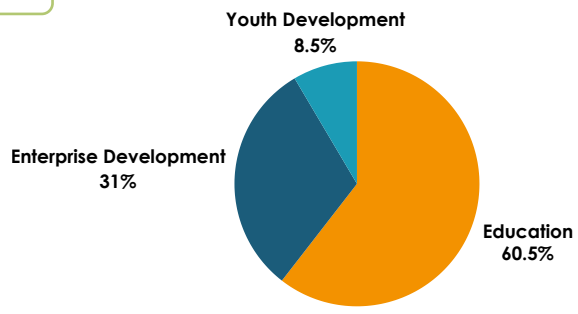

A BETTER SPACE TO LEARN

We proudly invested R1.2 million in upgrading the hospitality classroom at Weskus School of Skills in Saldanha, providing modern equipment and workstations for practical learning.

Developed through the West Coast Education District Stakeholder Engagement Forum, the project was implemented by Breadline Africa with a local contractor.

The improved facility will support 45–50 learners annually, helping them develop practical skills for future opportunities in the hospitality industry.
